Trade-In to Cernicalo

Market Entry Exchange Offer

Get rid of standard – experience high-end precision

The limited Cernicalo Trade-In program*, now grants your customer the unique opportunity to upgrade existing standard laparoscopic needle holders to a new level - experiencing top-class suturing with strong grip & precision.

The variety and combination possibilities of different handles, jaws, diameters and lengths ensure suitability for standard surgeries, as well as bariatric and paediatric interventions.

The Cernicalo line provides a wide range of possibilities due to available models as a one-piece, two-part and three-part version, to satisfy the need of every surgeon and guarantees high level of reprocessing.

The process cannot be easier

- 1 Send us any laparoscopic needle holder, irrespective of:
 - Brand
 - Dimensions
 - Handle
 - Jaws
 - Design & Construction
 - Manufacturing year

- 2 You will receive the Cernicalo needle holder of your customers choice, with an additional discount of **20%** on your regular net price.

What does Cernicalo stand for?

Cernicalo is a bird species from the falcon family that is common in Africa, Asia, and Europe. Cernicalo indicates the precision through its claws and its sharp perception. Characteristics that define Gimmi needle holder to perform exact and successful suturing.
